

# Website Applications with Your SmartBoard - June 9, 2009

What should my website/blog look like? (and why does it matter?)

- Define your purpose
- Know your audience

Check out the websites within our district.

<http://www.willard.k12.mo.us/>

Branson

<http://www.branson.k12.mo.us/>

Republic

<http://www.republic.k12.mo.us/e3/index.html>

Nixa

<http://www.nixapublicschools.net/>

What are my options?

- Independent site - you have full control
- Grade level site - collaborative control
- Independent site with grade level drive on the network - you have full control of your site AND collaboration on network links and resources
- Talk the Tech Cadre into developing your links - no control, but it saves a lot of time!

All Grades

<http://www.internet4classrooms.com/index.htm>

Top K - 4 websites

<http://topoftheclass.top-site-list.com/>

Kindergarten links

<http://olc.spsd.sk.ca/DE/PD/PreschoolSites.htm>

1st grade websites

<http://www.mrsmcgowan.com/1stgrade/firstsites.html#1>

2nd grade websites

<http://www.mrsmcgowan.com/2nd/websites.htm>

3rd grade websites (must see!)
